

EMS Services

Southern Rural Area 4

- The system is unable to provide consistent and effective ALS care to the citizens in the southern rural area of the county
- More than 30% of the calls for Scottsville Rescue are in other localities

Comparison of Staffing Solutions

ALS on QRV at Monticello

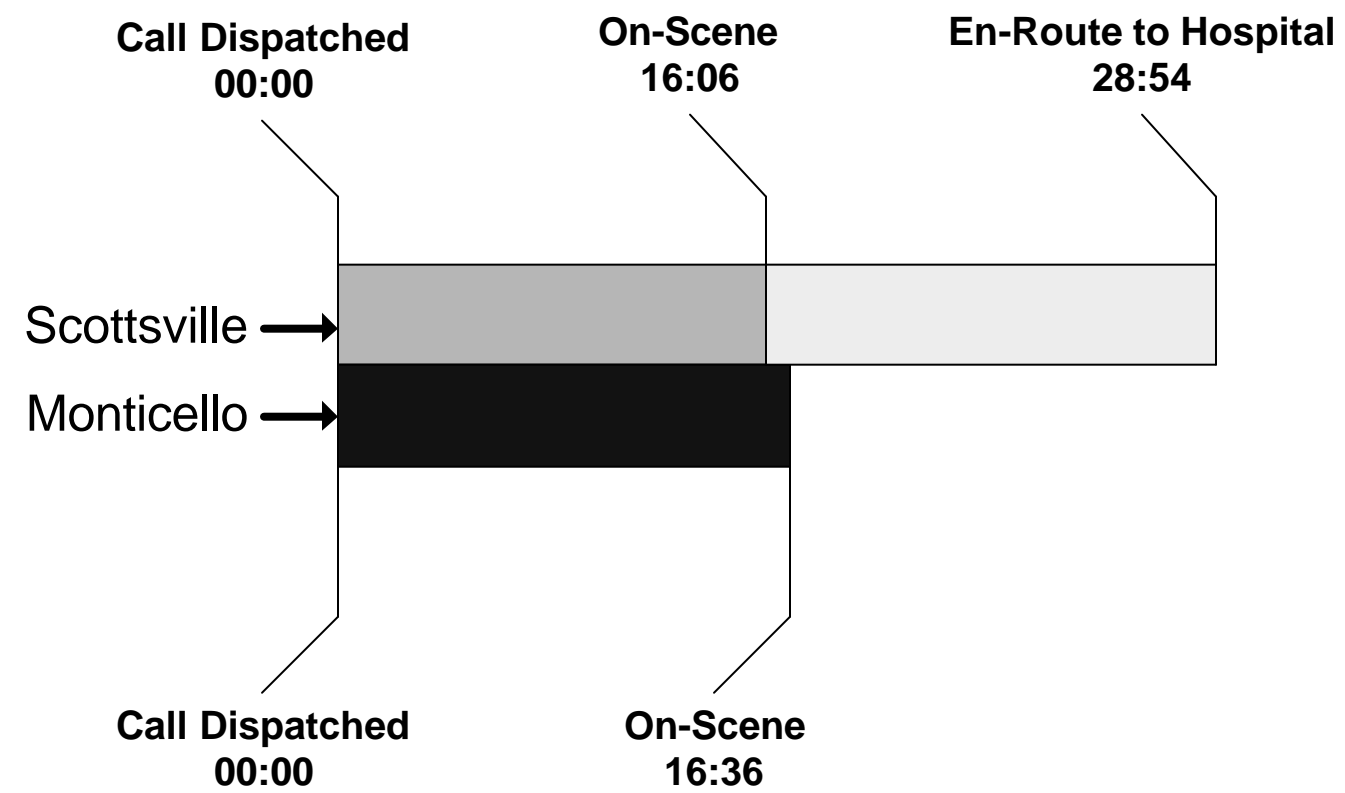

- Sends ALS resource only when needed
- Centrally locates ALS resource in the PDA, making it available for entire rescue system
- Immediate response of ALS provider

ALS Person at Scottsville

- Sends ALS resource on all calls regardless of need
- Locates ALS resource in southeastern portion of county near Fluvanna & Buckingham
- When station is not staffed with volunteers, there is a delayed response if ALS provider is forced to wait for a driver/EMT

(ambulance must wait for 2 people before responding according to OEMS rules & regulations)
