

CHARLOTTESVILLE RESIDENCY MONTHLY REPORT
DECEMBER 3, 2008
MONTHLY MEETING

ALBEMARLE COUNTY BOS ACTION ITEMS

Ken Boyd

- Signal Installation at Route 29/Burnley Station Road – Construction of this signal continues. The signal is expected to be complete and placed into operation mid-December.

Dennis Rooker

- Illegal Signs on Right-of-Way – County staff has informed VDOT they will be presenting a draft of the illegal sign enforcement agreement to the Board as part of the consent agenda. If adopted, it will be forwarded to the VDOT Commissioner for his approval. VDOT will then begin working with County staff to develop an implementation strategy including public notification.
- Woodlands Road/ Reas Ford Road Intersection – Residency staff has contacted the property owner again and presented him with options to consider that would allow VDOT to improve sight distance. The possibility of a four-way stop is still being investigated.

Ann Mallek

- Crozet Curbing Issues – A plan has been developed to address the high curbing at the intersection of the Route 240 and The Square Road through concrete modifications. Weather permitting work should be completed by the end of the calendar year.
- Patterson Mill Road (Route 824) – A safety review has been requested to determine if any warning signs are appropriate for this roadway. It is a gravel road, so a speed limit can not be posted. Section 873.1 of the Code of Virginia only allows posting speed limits on nonsurface treated roadways on certain counties within the Commonwealth.

Sally Thomas

- Stribling Avenue Extended – Routine maintenance was performed on this road the week of November 10th. Staff is working to develop a work plan to address drainage issues along this route. VDOT will continue to provide assistance to remove objects that are dumped on the right-of-way.

PRELIMINARY ENGINEERING

**Beginning this month, projects will only be listed in the report when there is a notable change in status.

- **Route 631 Meadow Creek Parkway, 0631-002-128, C502, B612, B657**
This project has been advertised. The bid received date has been changed to December 5, 2008. This was to accommodate some minor plan revisions. This should not affect the timing of the award recommendation to the Commonwealth Transportation Board in mid-December.
- **Route 743 Advance Mills Bridge, 0743-002-282 P101, R201, C501, B658 (Permanent Replacement Project)** Right-of-way negotiations and utility relocation efforts are continuing. Final administrative work is ongoing related to the contract proposal documents. The project remains on schedule for a January 2009 advertisement.

CONSTRUCTION

Active Construction Projects

(NFO) PM07-002-351, N501 I-64 Pavement Overlay and Guardrail Upgrades

- Paving is complete except under guardrail area.
- Guardrail installation is currently scheduled to commence the week beginning December 1.

BRDG-002-796, B672 Rte. 665 Bridge over Buck Mountain Creek superstructure replacement

- Bridge was reopened to traffic with concrete barrier in place on November 18.
- Contractor will be placing concrete bridge rail outside of barriers during the next two weeks.
- Asphalt paving possible this year depending on weather.

0627-039-195, M501 Grade, drainage and asphalt pavement improvements

- Clearing within project limits has been completed with erosion and siltation controls in place.
- Contractor's next planned activity is to drill and blast rock excavation.

RURAL RUSTIC ROAD UPDATE

ROUTE	ANTICIPATED START DATE
Route 765/668 (Walnut Level Road)	Base stone to be placed in December. Full work will resume in Spring 2009.
Route 722 (Green Mountain Road)	Work will be done on this project during the winter as weather allows.
