

Places29: A Master Plan for the Northern Development Areas

Table of Contents

1.	Introduction	1-1
	The Places29 Master Plan	1-1
	The Places29 Timeframe	1-4
	Implementation of the Places29 Master Plan	1-4
	Organization of This Master Plan	1-4
	Two Important Notes	1-6
2.	The Vision and Guiding Principles	2-1
	Vision Statement	2-1
	Guiding Principles	2-1
	Development	2-1
	Transportation	2-2
	Open Space and Community Facilities & Amenities	2-3
3.	Existing Conditions and Future Trends	3-1
	Population of the Northern Development Areas	3-1
	Existing Conditions and Community Structure	3-2
	Land Use Patterns in the Places29 Area	3-2
	Planned Development	3-6
	Existing and Planned Utilities Infrastructure	3-6
	Edge Conditions	3-6
	Open Space and Natural Resources	3-6
	Existing Transportation Network	3-8
	Existing Conditions	3-8
	Commute Patterns	3-10
	Future Trends	3-11
	Economic Framework	3-13
	Regional Demographic and Economic Trends	3-13
	Economic Framework Conclusions and Projections	3-15
	Market Analysis	3-15
	Residential Market Analysis	3-15
	Residential Market Findings	3-15
	Residential Market Conclusions	3-16
	Retail Market Analysis	3-17
	Retail Market Findings	3-17
	Retail Market Conclusions	3-18
	Office Market Analysis	3-18
	Office Market Findings	3-19
	Office Market Conclusions	3-20
	Industrial Uses	3-20
	Industrial Uses—Findings	3-21

Industrial Uses—Conclusion	3-21
4. Future Land Use Plan and Transportation Network	4-1
Introduction	4-1
Definitions	4-1
Future Land Use Plan	4-2
Relationship of Existing and Future Uses	4-3
Land Use Designations	4-3
Primary and Secondary Uses	4-6
Description of the Future Land Use Map	4-10
Distribution of Mixed Use Centers	4-10
Key Subareas of the Future Land Use Plan	4-11
Areas Recommended for Small Area Plans	4-16
Land Use Tables	4-16
Mix of Uses within Land Use Designations	4-17
Building Size and Footprint Requirements	4-17
Retail Commercial Size and Specific Use Requirements	4-17
Limitations Regarding Some Key Uses	4-18
Parks & Green Systems	4-18
Public Open Space	4-19
Greenways and Blueways	4-19
Semi-Public Open Space and Other Open Space Network Elements	4-20
Future Transportation Network	4-20
Roadway Elements	4-23
Transit Elements	4-24
Bicycle and Pedestrian Elements	4-24
Cross Sections for Key Network Roads	4-28
Potential Transportation Improvements beyond 2025	4-32
Development Capacity	4-33
How to Use the Maps and Tables in this Chapter	4-34
5. Place Types	5-1
Introduction	5-1
The Structure of Neighborhoods	5-1
Residential Neighborhood	5-3
Employment Neighborhood	5-4
Mixed Use Neighborhood	5-6
Airport District	5-7
Center Types	5-7
Neighborhood Service Center	5-8
Community Center	5-10
Destination Center	5-11
Uptown	5-13
The Areas Around Centers	5-15
Public Open Space in Neighborhoods	5-15
6. Community Facilities and Services	6-1

Introduction	6-1
Parks	6-1
Regional Parks	6-1
District Parks	6-1
Community Parks	6-2
Nature Parks	6-2
Parks Recommendations:	6-3
Police	6-4
Police Recommendation:	6-4
Fire-Rescue	6-4
Fire-Rescue Recommendations:	6-4
Schools	6-5
Schools Recommendations:	6-5
Library	6-5
Library Recommendations:	6-6
Solid Waste Management	6-6
Solid Waste Management Recommendation:	6-6
Water & Sewer	6-7
Water Service	6-7
Water Service Recommendation:	6-8
Sewer Service	6-8
Sewer Service Recommendations:	6-8

The following chapters and appendices are included here for your information, but the chapters are not yet ready for review. Chapter subheadings may change, too.

7. Design Guidelines for the Places29 Area and its Entrance Corridors

Introduction
How to Use the Design Guidelines
Chapter Organization
The Tables
Neighborhood Structure
Block Size and Street Patterns
Block Size
Street Patterns
Entrance Corridors: Block Sizes and Local Street Network
Local Access Lane (with one-way traffic)
Loop Road (two-way traffic)
Perpendicular Main Street
Roads Parallel and Perpendicular to US 29
Nonroadway Connections
Balancing Connectivity and Stream Protection
Land Use and Intensity Transitions
Open Space Network/Major Natural Features
Topographic Considerations (Grading and Landform)
Neighborhood Character

- Lot Types
- Street Design
- Creating “Place” Identity in the Public Realm: Entrance Corridors
- Landscape Treatment
- Street Furniture
- Lighting
- Public Art
- Elements of Site Design
- The Relationship of Buildings to Their Surroundings
- Building Orientation and Entrances
- Building Setbacks
- Building Facades
- Front Façade Transparency—the Transition from Public Realm to Interior Space
- Parking Design and Parking Garages
- Entrance Corridors: Recommended Frontage Conditions
- Urban Frontage
- Landscaped Development
- Landscaped Residential Yard
- Open Landscape
- Forested Buffer
- Entrance Corridors & Recommended Frontage Character
- Entrance Corridor: US 29 North (Seminole Trail)
- Entrance Corridor: Hydraulic Road
- Entrance Corridor: Rio Road West
- Entrance Corridor: Rio Road East
- Entrance Corridor: Airport Road
- Proffit Road
- Sidewalks & Sidewalk Zones
- Planting and Furnishings Zone
- Pedestrian Through-Zone
- Transition Zone
- Integrating Water Resources, Stormwater Management, and Development
- Parks and Open Space
- Greenways
- Civic and Public Greens and Other Open Spaces
- Incremental Site Development

8. Implementation of the Master Plan

- Introduction
- Transportation Projects
- Land Use & Development Projects
- Community Facilities & Services Projects
- Parks & Green Systems Projects
- Implementation Priorities
- Priority Areas: Addressing Existing Deficiencies & Needs
- Priority Area 1: The US 29 Corridor

Priority Area 2: Redevelopment & Approved New Development
Funding the Implementation Projects
Types of Costs and Source of Estimates
Funding Strategies
Prioritize Public Funding to Priority Areas
Development Approval Process
Federal, State and Local Dollars
Special Taxing Districts
Partner with the City of Charlottesville and the University of Virginia
"Nonstandard" Federal and State Funding Sources
Private Funding for Maintenance of the Public Realm
Partners in Implementation
Places29 Community Advisory Council
Implementation Monitoring
Monitoring Projects
Master Plan Review
The Implementation Table

List of Maps & Illustrations

Appendices

- A. Glossary of Terms Used in the Master Plan**
- B. Recommended Transportation Improvements**
- C. Public Participation Program Events and Summary**
