

January 25, 2006

Dear Crozet Residents,

You are cordially invited to attend a town meeting to update residents on the status of implementation for the Crozet Master Plan to be held on **Thursday evening, February 9, from 7:00 pm until 9:00 pm at the Western Albemarle High School Cafeteria.**

As you may be aware, the Crozet Master Plan was adopted by the Board of Supervisors in December, 2004, as part of the County's Comprehensive Plan following an extensive public participation process. Since that time, county staff has been working to implement the major elements of the plan with a particular focus on the infrastructure needed to accomplish the Plan's vision for Crozet as a vibrant and self-sufficient community.

While the Master Plan and its population projections have been the topic of much discussion recently in other venues, the purpose of the meeting on February 9<sup>th</sup> is to focus on infrastructure development in Crozet over the next 20 years of the plan. We feel that Crozet residents need and deserve the opportunity to hear directly from county staff and officials about the status of implementation and the efforts that are going on to support the goals of the plan.

At this meeting, we will update the community on specific infrastructure projects such as the library, the downtown sidewalk project, parking, Western Avenue, and Jarman's Gap Road. We will also discuss the formation of the Crozet Community Advisory Committee to be appointed by the Board of Supervisors and outline other ways for you to stay engaged in the process of master plan implementation. There will be opportunities for questions and answers, both during the presentation and after the formal meeting, in a more one-on-one setting with individual staff members.

As was recognized throughout the master planning process, the community is a critical partner in the success of the Crozet Master Plan. While we have been working hard on the Master Plan in the past year, we recognize that additional engagement with the community is necessary to keep everyone well informed. With this meeting as an important first step, we hope to reestablish our direct and ongoing dialogue with Crozet residents.

Please visit the Crozet Master Plan website at [www.albemarle.org](http://www.albemarle.org) after February 1 to see updated information and an agenda for the February 9 meeting, and subsequently to keep up to date on master plan activities. You may also sign up for the Crozet Amail enews service on the website so that you will receive regular bulletins, meeting notices, etc.

We appreciate your interest and hope that you will attend the meeting and/or stay informed about the progress of the Master Plan through one of the methods we have mentioned. If you have any questions or need more information in advance of the meeting, please contact our Community Relations Office at (434)296-5841.

Sincerely,

David C. Wyant  
Supervisor, White Hall District
