

Western Park Comments –as of 6/25/08

Received by Mail:

1. No skateboarding – it could easily be put in Claudius Crozet Park.
2. Paved Trails – no bikes.
3. Access from north side of park, so parking can be done there and people could cross a bridge to get to trails.
4. Not enough room for tennis and skateboarders. Also noisy.
5. Butterfly gardens.
6. Quiet places to sit.
7. Maybe a gazebo.
8. Trail with benches along the way.
9. A paved trail to accommodate the handicapped (especially wheelchairs) and the elderly, leading to benches.
10. No bicycles or skateboards on trail.
11. Area where people can take dogs on leashes (or fenced off so they can run free). Poop must be scooped.
12. Bird houses.
13. A quiet place.
14. Would like a park that attracts wildlife, especially birds.
15. A butterfly garden.
16. Benches in the shade.
17. Water fountains.
18. Walking trails, no skateboards.
19. A park for all ages and activities, not dominated by soccer fields or areas created for specific organizations or groups. Everyone should be comfortable there – the low income individuals as well as the affluent ones.
20. Walking paths, benches, gardens, picnic shelters, large playground, and quiet areas away from crowds and noise. A water feature – pond, fountains, etc., would be nice.
