

**Crozet Master Plan 2009 Update-Community Forum III**  
**December 17, 2009; 7-9pm at the Field School**  
**COMMENT SUMMARY**

Transportation

Parks &  
Greenways

Community  
Facilities

**GROUP DISCUSSION NOTES (TWO ITEMS IN RED HIGHEST PRIORITIES) :**

- Plan for and develop trails that allow Western Ridge, Highlands, and Old Trail neighborhoods to walk into downtown
- Continue to show an elementary school site in the Master Plan
- Reexamine the frontage road issue between Crozet Ave. and the school complex north of Rt. 250. Look for a way to provide street access from Old Trail to the school complex.
- Strengthen language in the Master Plan to prevent thru truck traffic on Eastern Avenue
- Clearly state the expectations for Eastern Avenue including its expected cross-section. There should be bike lanes and median landscaping.

**COMMENT SHEETS:**

Comments:

The area south of WAHS ~~on parcel~~ is ideal for hiking/biking trails to aid in connecting the school & its environs w/ the north side of Rt. 250.

Comments:

- ① Henley School - Long turn lanes (curve) IN AND AROUND EXITS PERHAPS TO WESTERN AVE
- ② DESIGN RESTRICTIONS TO PREVENT 18 WHEEL TRUCKS FROM EASTERN AVENUE ACCESS - ALLOW PAVED SHOULDER & CURB DESIGNATIONS
- ③ WALKING TRAIL - GET AGREEMENT TO ALLOW PERMITTED FROM DOWNTOWN TO CARTERS TO HANCOCK TO OLD TRAIL - CONNECT OLD TRAIL & DOWNTOWN

Comments:

LOOK @ TRUCK ROUTE ON  
EASTERN SIDE - DO NOW -  
RT 240 & US 250 MECHANIS IS A  
NIGHT MARE FOR TRUCKS - 240 IS  
WINDING AND REQUIRES SHIFTING OF  
GEARS - DUE TO LOADS - AMERICA'S NEEDS MOVED  
BY TRUCKS!!

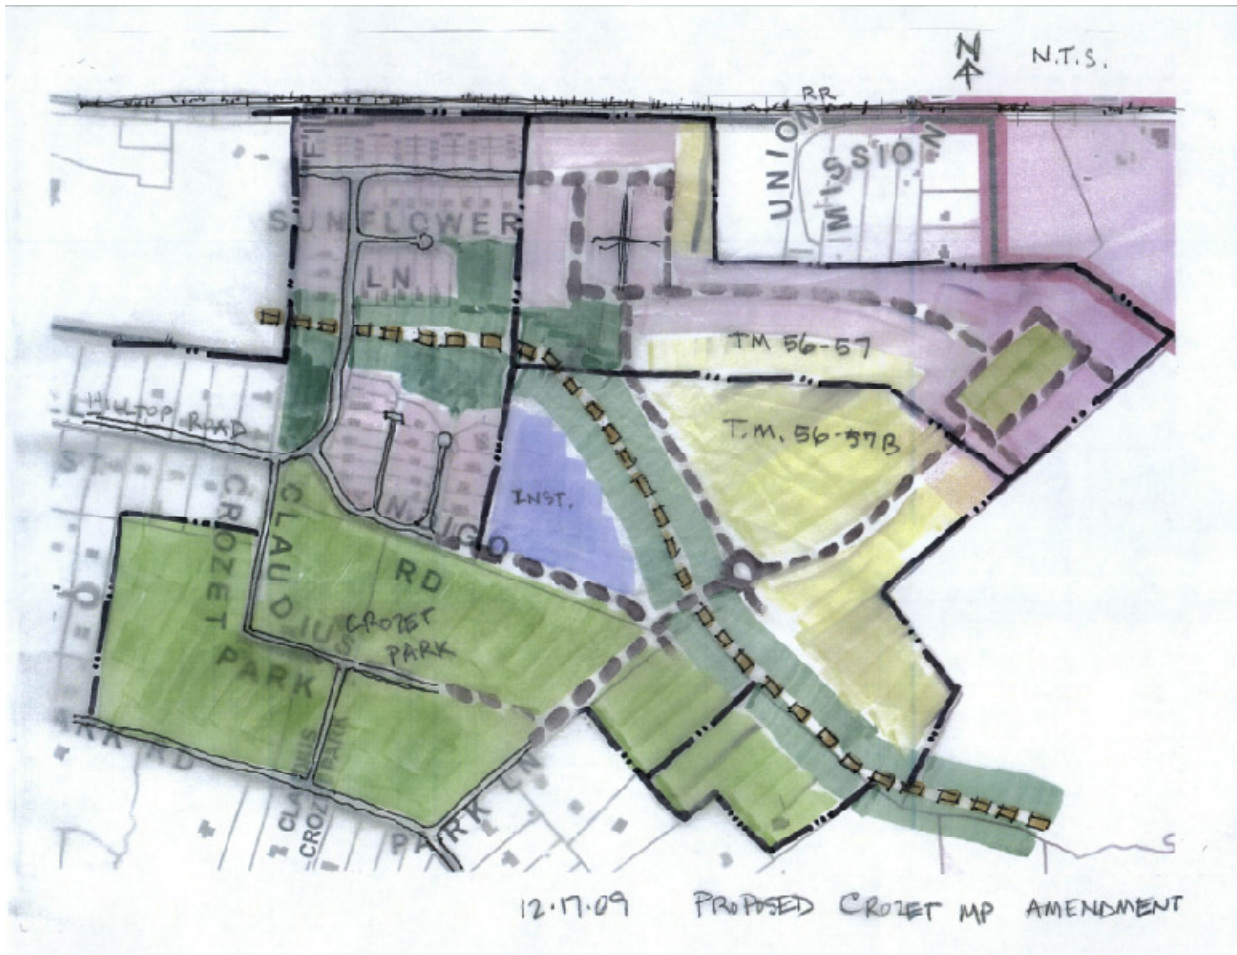

Comments:

240 East of Crozet needs pedestrian & bike  
access all the way to Highlands - there is  
no way to get into town other than driving.  
There is no way to safely bike between the  
subdivisions on 240 E of Crozet & no mention  
of working on these.

Comments:

Please remove proposed road that connects Carter St.  
and Blue Ridge Ave. from the Master Plan.  
There is no need / real purpose for this potential  
road.

Sketch provided by citizen with suggested master plan land use/roads revision to area east of the lumber yard. Sketch shows proposed relocation of future elementary school site in blue. (Inst.)
