Agenda

Workshop Objective:
This first in a series of public meetings will introduce the Places29 project and engage the community in defining an initial vision for the future character of development, open space, and streets in the Northern Albemarle Development Area.

1. **Introduction** (Dennis Rooker, Chair, Albemarle County Board of Supervisors) [10 min.]

2. **Introductory Presentation** (Community Design + Architecture Consultant Team and members of the Project Working Group) [40 min.]
   - Purpose, approach and schedule of the Places29 project;
   - Review of key existing policies and goals;
   - Review of initial conditions maps to define the existing context for the planning area and to frame the community visioning; and,
   - Presentation of alternative place and transportation concepts to inform the possibilities for a community vision.

3. **Breakout Group Session** [1 hour and 20 min.] Using initial maps of existing land use designations, existing land use patterns, and a range of existing conditions maps, breakout groups will be facilitated through exercises to describe assets, needs, and opportunities in the area, as well as a discussion of their vision for the planning area.

4. **Small Groups Report Back** [45 min. to 1 hour]: Using sketches and notes prepared during the small group session, a member or members of each group will report back to all attendees about the group’s conclusions and discussions.

5. **Next Steps** [5 min.]: Phil Erickson (CD+A), Judith Wiegand (County Project Manager), and Harrison Rue (Director, TJPDC) will provide an overview of the next steps for the Master Plan and Transportation Study and when the next charrette is scheduled to occur.

*Everybody's opinion counts, everybody's voice needs to be heard!*
