Welcome to the 2015 Annual Report to the community. Please take the time to review the data reflected in this edition and feel free to contact us should you have questions.

Long before the creation of the President’s Taskforce on 21st Century Policing, the Albemarle County Police Department recognized the need to transform how we do business in Albemarle County. Established in 2012, the ACPD’s Geographic Policing philosophy embodies the recommendations of the President’s Taskforce and the best practices in policing. With the change in philosophy, came a change in hiring, training, performance expectations, citizen-police relations and accountability. The men and women of the ACPD have stepped up to the challenge and live Geographic Policing every day.

Their hard work can be seen in the following performance measures:

- **466% Increase in Citizen Commendations since Implementation of Geo-Policing**
- **17% Reduction in Citizen Complaints since Implementation of Geo-Policing**
- **15.9% Reduction in Part 1 Crime**
- **68.8% Increase in Community Policing from 2014 to 2015**
- **109% Increase in Proactive Community Patrols from 2014 to 2015**
- **12.5% Reduction in Fatal Motor Vehicle Crashes from 2014 to 2015**

Despite the excellent work by the ACPD employees in 2015, 2016 promises to be even more exciting as significant improvements come to fruition. They include, but are not limited to:

- **Opening of the Regional Firearms Training Center**
- **New Police Records Management System**
- **New Police Computer-Aided Dispatch System**
- **Updated Police Policy Manual**
- **Reaccreditation**
- **New Police Leadership**
- **Fair and Impartial Policing Training**

It’s been my honor and privilege to serve the citizens of Albemarle County for the past 5 ½ years. My experience here has exposed me to the most professional and compassionate law enforcement professionals I’ve ever worked with. As I prepare for retirement, I can’t help but reflect on the accomplishments realized through teamwork between our employees and our citizens. It is teamwork that makes us strong and ensures that we are best protected as a community.

Sincerely,

Steve Sellers

Chief of Police
The mission of the Albemarle County Police Department is to provide for the safety and security of our many diverse citizens and communities while protecting individual rights and delivering quality services.
Albemarle County is 726 square miles in Central Virginia. The County is a unique blend of rural and urban developments. In 2012, the ACPD divided the County into two separate geographic districts: The Jefferson District and the Blue Ridge District. When the officers are assigned to their geographic districts, they are able to meet the specific needs of the community. They also build relationships within the community and employ crime prevention and problem solving initiatives.

ACPD: TEAMWORK 5
The Albemarle County Police Department has a strategic plan to address the specific goals for the agency. The strategic goals are supported by objectives, initiatives and performance measures.

As the department develops and progresses, the goals are updated to meet specific needs, but also to ensure we are aligned with the County’s overall strategic plan and working as One Organization Committed to Excellence.

In 2015, the ACPD continued to work on the three goals adopted back in 2013:

**Goal 1:** Geographic Based Policing  
**Goal 2:** Regional Emergency Preparedness  
**Goal 3:** Invest In Our People

In a recent update to the strategic plan, the ACPD identified the following goals through 2019:

**Goal 1:** Strengthen Community Trust, Legitimacy and Accountability  
**Goal 2:** Enhance Community Safety  
**Goal 3:** Improve Transparency  
**Goal 4:** Invest In Our People
GOAL 1: Geographic Based Policing

The Albemarle County Police Department continued to forge ahead with Geographic Based Policing. There were four specific areas we focused on in 2015: Recruitment and diversity, getting a new public safety Records Management System in place, gang prevention and traffic safety education.

Part of the makeup of Geographic Based Policing is diversity. We know our agency must be reflective of the community we serve so there is a mutual respect present. Being able to illustrate our efforts to make that happen and actually making it happen, will allow us to establish strong and longstanding partnerships in the communities we are trying to protect and serve. The Training and Professional Development Unit (TPDU) partnered with the Huffmyer Agency to create a diversity recruitment video to assist us with enhancing our diversity within the police department. The video showcases the diversity of our officers and the community as a whole and spells out the opportunities for applicants in the Albemarle/Charlottesville area. You can find the video on our website: www.albemarle.org/police.

Another aspect of the Geographic Based Policing model is a regional public safety Records Management System which we are working to put in place in the summer of 2016. The ACPD, in conjunction with the City of Charlottesville and The University of Virginia, signed a contract with New World Systems in December of 2014 to purchase the system. It includes a computer aided dispatch and mobile application that serves law enforcement and fire/rescue agencies; an integrated law enforcement and jail records management system; an automated field reporting application; and patient care reporting application. In 2015, various hardware was installed to initiate the project, and configuration and testing of the system began. This system is a significant upgrade from the current infrastructure and will greatly improve public safety through enhanced communications, record keeping, decision making ability, and timeliness of critical information.

The ACPD partnered with the community to identify 19 at-risk students to participate in a Virginia Rules Camp powered by GRACE. A significant amount of time was spent helping the campers develop skills needed to make sound decisions, avoid breaking laws, and becoming productive citizens in their schools and communities, with a full day dedicated to education on gangs. Also in 2015, one of our school resource officers spearheaded efforts to establish the Gang Resistance Education And Training (G.R.E.A.T) program within our local schools.

In 2015, the Albemarle County Police Department Traffic Unit continued its efforts with Geographic Based Policing by addressing traffic concerns and conducting proactive educational programs. The Traffic Unit was awarded 1st Place in the Municipal Category (61-125 Officers) for Traffic Education and Enforcement and the Bike Patrol Team received the Bicycle & Pedestrian Safety Award from the Virginia Association of Chiefs of Police during the 2015 Law Enforcement Challenge.
GOAL 2: Regional Emergency Preparedness

In support of our strategic goal to enhance *Regional Emergency Preparedness*, the ACPD spent 2015 working with other agencies around the area to develop emergency action plans and helped oversee the construction of the new Regional Firearms Training Center, which is to serve the Albemarle County, Charlottesville and The University of Virginia Police Departments.

The construction of the new Regional Firearms Training Center began in June of 2015. Final completion is expected in June of 2016. A Range Oversight Committee was established with representation from each of the three partnering police departments. In the last year, the committee worked extensively at creating a joint procedural manual to address the daily operations of the facility. The design of the new facility will allow us to train in multiple areas critical to the continual safety of our communities and officers. The facility has a total of 16 firing lanes, classroom space for response to resistance training and a simulator specific to those encounters.

On December 5, 2015, the ACPD partnered with Fashion Square Mall to conduct a critical incident tabletop exercise. The exercise brought together staff from the ACPD, Albemarle County Fire/Rescue, management from Fashion Square Mall, members of the Fashion Square Mall security team and several mall merchants to start a conversation about working together in responding to an active shooter scenario inside the mall. The exercise tested response protocols and emergency action plans.

Throughout 2015, the Special Operations division worked directly with several Key Regional and Federal Stakeholders regarding emergency action plans, practical exercises and special events. These include the annual 4th of July Naturalization Ceremony at Monticello, concerts and sporting events at the University of Virginia, critical incidents at Piedmont Virginia Community College, and long range planning events with Charlottesville/Albemarle Emergency Communications Center (ECC). In addition, the department trained six new supervisors in Incident Command Systems (ICS 300).
You may have noticed that *Investing in our People* is a strategic goal that is here to stay. The ACPD realizes that taking care of its people goes beyond the badge. A healthy work/life balance is crucial to a person’s well-being and, when your career is that of public service, it is a calling that requires a healthy mind and body at all times.

The Wellness Program was started in 2011. It is a voluntary program which allows officers and civilians to take advantage of using the gym or running in an approved location for the purpose of staying healthy. Wellness programs are one of the 21st Century Policing Task Force recommendations for keeping a healthy workforce and community. Our program started with just a few members signed up and we now have more than half of our department participating. The department is also offering comprehensive wellness physicals in an effort to detect serious illnesses much sooner.

Another area where we are *Investing in our People* is through the new Career Development Program which went into effect in July of 2015. The program was established to provide professional growth opportunities for officers throughout their careers. Officers who participate in the program must complete various requirements along the way. Some include attending community events, completing specialized training, leadership courses and having direct involvement in geographical policing initiatives.

The Career Development Program has three levels: Police Officer First Class, Senior Police Officer and Master Police Officer.

SWAT Call-Outs

In 2015, the ACPD had nine call outs with four being mutual aid requests.

*The SWAT team is only called out if there is the potential for loss of life or severe injuries.*
In 2015, there were 3,028 arrests. 1,180 of those individuals were taken into custody, 920 were ticketed/cited, 928 were warrantless arrests.

On 20 occasions in 2015, officers were required to use force to overcome resistance or threat.

In 2015, there were three assaults on ACPD officers, down from nine assaults in 2014.

In 2015, 14 individuals resisted arrest, compared to 11 in 2014.
The Jefferson Area Drug Enforcement Task Force, or JADE, is a team comprised of detectives from Albemarle County, Charlottesville City, Virginia State Police and The University of Virginia.

There were 291 total arrests made by JADE in 2015. Seventy-five of those were in Albemarle County.

JADE saw a significant spike in firearms seizures in 2015, with 66 taken off the streets compared to 13 in 2014.

Total Cocaine seized: 1503.81 grams.
Total Methamphetamine seized: 1018.9 grams.
Total Marijuana seized: 36.37 pounds.
Recognizing an increase in gang related activity in the community, the Albemarle County Police Department implemented a renewed focus toward stifling gang related violence and crime. This focus included a multifaceted approach of identification, enforcement, prevention, intervention and education.

In Albemarle County, gang-related crimes included: Breaking and entering, larceny, motor vehicle theft, assault, prostitution, narcotics sale and distribution and vandalism. Officers and analysts worked together to gather the necessary intelligence to begin to track and deter the noted criminal activities.

To accomplish this, several strategies were employed:
- ACPD’s Gang Suppression Team was strengthened to include agency members in each of the divisions.
- An emphasis was placed on specialized training regarding the identification, evolution, operation, and prevalence of gangs in our area.
- One fulltime detective was assigned to the regional Safe Streets Task Force which is a nationwide program sponsored by the FBI created to “…pursue violent gangs through sustained, proactive, coordinated investigations....”
- The ACPD was awarded a grant to fund a Problem Oriented Policing (POP) Sergeant within our Community Services Division. This position is held by the Gang Suppression Team principal. A primary focus of the POP position was and is to identify and address developing gang related issues.
- Our agency worked in conjunction with the City of Charlottesville to reestablish the gang member validation system, thus, resulting in a 17% increase in the identification of local area gang members.
- Ties with the corrections system regarding the exchange of information and intelligence were fortified. The exchange focuses on identifying those matriculating into gangs within the prison system. Monitoring this activity supports the relentless pursuit for officer safety and awareness when members are exiting the system.
- The implementation of the Gang Resistance Education And Training (GREAT) programs within our local schools was spearheaded by one of our school resource officers. GREAT is an “evidence-based and effective gang and violence prevention program built around school-based, law enforcement officer-instructed classroom curricula.”
- The Office of the Attorney General provided a $5,000 grant to sponsor a Virginia Rules Camp powered by GRACE in the Albemarle-Charlottesville area. Focus was on establishing relationships between at-risk youth and our community. The ACPD partnered with the community to identify 19 at-risk students from area middle schools. A significant amount of time was spent helping the campers develop skills needed to make sound decisions, avoid breaking laws, and becoming productive citizens in their schools and community.
2015 COUNTY TRAFFIC STATISTICS

<table>
<thead>
<tr>

</tr>
<tr>
<td>2015</td>
<td>1,996</td>
<td>14</td>
<td>8,219</td>
<td>216</td>
</tr>
</tbody>
</table>

Compared to 2014, crashes, traffic fatalities and tickets were all down for 2015. However, DUIs rose by seven arrests. DUIs along with driver inattention, no seatbelt and speeding are the top contributing factors for injuries and fatal crashes.

Albemarle County ranks second highest in total crashes compared to our peer counties per population. We also rank second highest in fatal crashes per population with our peer counties, often switching places with Prince George County for first-place.

Traffic safety remains a top priority for the Albemarle County Police Department.

INTERNAL PLUS COMMUNITY TEAMWORK...

Throughout each year, Albemarle County Police officers work together to host and participate in a number of community engagement activities. They range from light-hearted, casual events like ‘Coffee with a Cop’ and ‘Kids and Cops Holiday Shop’, to more intense gatherings that bring together other organizations within the community such as the critical incident tabletop exercise that took place in December.

Regardless of the atmosphere or purpose of the event, how big or small, a lot of teamwork goes into making the outreach happen and that outreach has a common goal: To form one team made up of the community and the ACPD that will hopefully build a solid foundation of trust between the two and a relationship that will last beyond the events.

A. Critical Incident Tabletop Exercise at Fashion Square Mall

B. Kids and Cops Holiday Shop

C. One of nearly 10 Coffee with a Cop events in 2015

D. Patrol Officers visiting an area After School Program
EQUALS ONE TEAM!
The 20th Annual Awards Banquet was held in May of 2015 at the Boar’s Head Inn.
The annual banquets formally recognize the hard work and dedication of people inside and outside the Albemarle County Police Department.

COMMUNITY FEEDBACK

Cheers and Jeers

Complaints against officers are down from 60 in 2014 to 45 in 2015.
Of the 45, 14 complaints were internally generated.

Praises for our officers continues to rise and we could not be more grateful.
We saw 368 commendations in 2015 compared to 200 in 2014 and 65 in 2013.
