Re: Ron Martin Site Plan
Expansion/Added Parking

Dear Francis,

In order to allow for planting additional trees and shrubs in the buffer area, I request a waiver for this activity referring to Section 21.7.3 of the Code. Also since our parking is so close to the buffer a slight disturbance may occur within the buffer. The waiver request should also cover this possibility. If this should occur all disturbed areas will be restored to their original condition i.e., replanted.

Thank you for an anticipated favorable response to this matter.

Sincerely,

Kurt M. Gloeckner, P.E., P.L.S.
President
