The Crozet Master Plan, an adopted part of the Albemarle County Comprehensive Plan, is intended as a general guide for future development and systematic change in the Community of Crozet. The Comprehensive Plan is advisory in nature and, with its accompanying maps, charts and other supplementary information, it sets forth the County's long-range recommendations for the development of land within its jurisdiction. The Comprehensive Plan also serves as a guide for the development and implementation of the Zoning Ordinance. Development guidelines contained in the maps, charts and other supplementary materials in the Comprehensive Plan are intended as targets rather than specific requirements, consistent with the advisory nature of the document.
