

- Existing Roadway Network
- Proposed Roadway Network
- Proposed Improvement of Existing Roadway
- Optional Roadway Network Additions (Necessary to support private development; should be integrated into network to provide for continuity of movement)
- - - Possible Additions to Roadway Network (Beyond 2025)
- Places29 Major Intersection Improvement
- Possible Major Intersection Improvement (Beyond 2025)

Transportation improvements shown on this diagram within the City of Charlottesville are not part of the County's Places29 Master Plan. They represent, however, improvements developed as part of the overall US 29 North Corridor Transportation Study and the 29H250 planning effort.

For additional information, see Chapter 4 text relating to Figure 4.8.
