Albemarle County’s focus on economic development has developed significant momentum in recent years. The County has taken a very deliberate, thoughtful, and strategic approach that works within the framework of the community’s vision as established in the Comprehensive Plan and other established policy items.

SIGNIFICANT MILESTONES ALONG THE WAY:

2008
Updating the Economic Development Chapter of the Comprehensive Plan – To reflect a more up-to-date strategic focus on desired industries.

2009
Economic Opportunity Fund created – For the first time, established a dedicated source of funding to support desirable economic development activities, used in several instances to match state grant funds for capital investment and above average wage jobs.

2010
Economic Vitality Action Plan/Target Industry Study – Action plan adopted by the Board in 2010 with five specific goal areas; one of the most significant outcomes was a regional target industry study commissioned to identify industry groups with greatest chance of success given community assets and preferences – Analyzed assets, workforce, existing industry clusters, etc.

2012
Zoning ordinance modernized – A complete modernization of the zoning ordinance to provide more flexibility and location options for businesses in target industry sectors.

2015
Economic Development Office created – Hired the County’s first Economic Development Director.

2016
Restructured Economic Development Authority (EDA) – Streamlined procedures that allow the EDA to operate as a more effective economic development partner.

2016
Economic development identified as critical focus on Strategic Plan – FY17-19 Strategic Plan adopted last year identifies redevelopment and revitalization of County’s urban areas, including focus on economic development as top priorities.

2016 and 2017
Support for economic development in Two Year Plan and FY18 Annual Budget – Dedicated money to support initiatives that promote capital investment, quality jobs, and economic vitality for urban areas.
CONTRIBUTING POLICIES/DOCUMENTS:
Existing County policies and documents provide an overarching structure and parameters to help define priorities in the Economic Development Strategic Plan.

County’s Vision Statement:
Albemarle County envisions a community with...

• Abundant natural, historic, and scenic resources
• Healthy ecosystems
• Active and vibrant development areas
• A physical environment that supports healthy lifestyles
• A thriving economy
• Exceptional educational opportunity

...for present and future generations.

ECONOMIC VITALITY THREE YEAR ACTION PLAN PREAMBLE – ADOPTED IN 2010:
The Economic Development Policy of the County’s Comprehensive Plan has a stated purpose to “provide the local citizenry an improved standard of living and enhanced quality of life.” This Action Plan is intended to translate the purpose and goals of the Economic Development Policy into concrete and measurable actions, being very mindful of the need to adhere to already established growth management objectives and natural resource protections. While this Plan is focused on accomplishing specific action items within the next three years, the County recognizes the need for a long-term commitment to economic vitality. This Plan is intended to establish a sustainable pathway for the long-term health of our local economy.

TARGET INDUSTRY STUDY – COMPLETED IN 2012:
The Central Virginia Partnership for Economic Development directed consultant work on a Target Industry Study for its member jurisdictions, including Albemarle County, which was completed in April 2012. This study identifies types of industries that have the strongest potential to succeed and offer the best prospects for “good jobs,” meaning jobs that offer a higher quality of life (security, higher wages, opportunities for advancement, training, flexibility), and strong investment both in our larger region and specifically in Albemarle County. The Board of Supervisors endorsed the targets recommended for Albemarle County in May 2012. It is important to note that while identified target industries are the particular focus of many of the strategic plan goals and objectives, the County continues to recognize the value of and to support the many businesses outside of the target industries that benefit our community’s economy.

The list of target sectors is a list of optimal targets and should not be considered to exclude related sectors. It is critical to emphasize that the Target Industry Study supports the cultivation and nurturing of existing businesses and considers employment of current residents as its most important outcome. The targets were selected based on available workforce, alignment with community preferences, and growth potential as well as strong multiplier effects that create jobs across a broad spectrum of skill sets.

The recommended target industries are:
• Bioscience and Medical Devices
• Business & Financial Services
• Information Technology and Defense & Security
• Agribusiness and Food Processing

Complementary targets are:
• Health Services
• Arts, Design and Sports & Media

JOINT ENDORSEMENT OF MISSION AND GUIDING PRINCIPLES – COMPLETED IN 2017:
In July 2017, the Board of Supervisors, Planning Commission, and Economic Development Authority jointly endorsed the Mission and Guiding Principles for an Economic Development Strategic Plan (see more on page 7). The development of specific goals, objectives, and strategies for these principles were delayed until the arrival of a new County Executive and Director of Economic Development.

RECONSTITUTION OF THE CHARLOTTESVILLE-ALBEMARLE CONVENTION AND VISITOR’S BUREAU (CACVB):
In September 2018, the Executive Board of the CACVB met for the first time. Tourism will be part of Albemarle’s strategic initiatives.

COUNTY STRATEGIC PLAN

ED MISSION AND GUIDING PRINCIPLES

ECON DEV STRATEGIC PLAN
The next step in the County’s Economic Development Program involves the adoption of a Strategic Plan that identifies economic development priorities by establishing goals, objectives, and strategies for the following four years. Hereafter, the Economic Development Strategic Plan is called “Project ENABLE” because its primary purpose is to ENABLE A Better Life Economically. These priorities shall align with community development goals, the Comprehensive Plan and the County’s overall Strategic Plan. Together, they create an economy driven by business, industry, and institutions in a way that complements growth management.

Project ENABLE will utilize the labor force, resources, and structures to export goods and services that reflect the County’s comparative economic advantages, as outlined in the 2012 Target Industry Study and the Region 9 Growth and Diversification Plan. This approach will maximize Albemarle’s economic vitality and import wealth into the area. Its success will require a cross-functional internal team as well as the inclusion of external partners. Project ENABLE will inform budgetary, capital, infrastructure, and work plans for the impacted departments and the County overall. It will provide clear direction and prioritization while remaining flexible enough to adjust to changing conditions.

Project ENABLE

The County recognizes that economic development is most successful as a “team sport” which requires successful internal and external partnerships to fulfill the mission of Project ENABLE. The strategic plans of key partners at the local and state level have been considered in the development of this plan, including U.Va., the Central Virginia Partnership for Economic Development, and the Virginia Partnership for Economic Development.

To help clarify the role played by the County in these partnerships, a glossary of terms is provided on the following page. This glossary provides context-specific definitions to better understand the roles and responsibilities of the County throughout Project ENABLE.

STATEMENT OF PURPOSE
Agribusiness: The business of agricultural production, including breeding, crop production, distribution, processing and seed supply.

Business Process Optimization: A County-wide effort to improve service delivery through better collaboration and a reduction in the duplication of efforts.

Business Cluster Strategy: Convening a group of interconnected businesses, suppliers, and others in a local geography to increase productivity and competitiveness within a given sector.

Consumptive business: An establishment that primarily provides a good or service locally (within the Charlottesville MSA).

Controllable barriers: The County’s administrative policies and processes that are discretionary in nature, not regulatory.

Rapid Response Team: A parallel organization comprised of several team members from departments within County government (such as Community Development, Finance, Parks and Recreation, County Attorney, and County Executive’s Office) that collaborate on Economic Development projects on an as-needed basis.

Economic Gardening: An economic development strategy aimed at growing second-stage companies (i.e., primary businesses with 10-100 employees).

Follow: Respond, “Do no harm.”

Institutional: Governmental and quasi-governmental organizations.

Lead: Develop, initiate, organize, coordinate, direct, guide, manage the effort and be accountable for the result.

Monitor: Regularly observe and take notice of collected data or efforts by others.

Charlottesville Metropolitan Statistical Area (MSA): Currently defined by the U.S. Census Bureau as Albemarle, Greene, Nelson, Fluvanna and Buckingham counties, as well as the City of Charlottesville.

Participate: Actively cooperate, engage, collaborate in the effort and contribute to the result.

Partner: Collaborate to equally share the responsibility of leading an effort and sharing accountability for the result.

Primary business: An establishment that produces a good or service locally and primarily sells it outside of the Charlottesville MSA.

Refer: Encourage the use of other resources.

Support: Actively or passively contribute by providing consultation and/or financial resources to purposefully avoid duplicating efforts.

Technology Transfer: The process of transferring technology from its origination to wider distribution.

VEDP’s VALET Program: A two-year business acceleration program aimed at increasing international exports.
To attract additional financial resources into the community through responsible economic development activities that enhance the County’s competitive position and result in quality job creation and career employment opportunities, increased tax base, enhanced natural resources and community character, and an improved quality of life for all citizens.

ECONOMIC DEVELOPMENT MISSION:

OBJECTIVE 1 | Lead the formalization of the existing BRE program

STRATEGIES:

- Lead the creation of a schedule to visit a representative sample of target industries and primary businesses at least once every two years
- Develop a systematic approach for using business visitation data to improve retention and expansion
- Refer consumptive businesses to existing community resources like the CVSBDC, CIC, SCORE, etc.
- Monitor the small business survey of CVSBDC
- Lead an enhanced level service for primary businesses by providing customized support
- Partner with the private sector, City, UVA, and CVPED to examine a business cluster group strategy
